- 6) Distribution of Syllabus in Question Paper is only meant to cover entire Syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. As it is only for the placement sake, the distribution has been done.
- 7) Use Common answerbook for **all** Section

1. Write Appropriate Answers. (Any ten out of fifteen)

[10×2=20]

- a) Classify APH.
- b) Define Zygot
- c) Define Partograph
- d) Names of any 4 reflexes in newborn
- e) Define Dystocia.
- f) 2 indications of 2 remedies for anaemia during pregnancy
- g) 2 indications of any 2 remedies for deficient lactation
- h) Define metrorrhagia
- i) What is effluvium seminis?
- j) Normal sperm count
- k) What is azoospermia & aspermia
- l) 2 indications of 2 remedies for DUB
- m) 2 indications of 2 remedies for Ca cervix
- n) 2 indications of 2 remedies for oligozoospermia
- o) 2 indications of 2 remedies for dysmenorrhoea

2. Write Short Answers. (Any four out of six)

[4×5=20]

- a) Gametogenesis
- b) Management of second stage of labour
- c) Define Hyperemesis gravidarum. Write down the indications of 2 remedies for it.
- d) Describe Placenta praevia with its grades.
- e) Cryptomenorrhoea.
- f) Indications of Hammemelis & Trillium pendulum for menorrhagia

3. Write Short Answers. (Any four out of six)

[4×5=20]

- Define Lactation. Explain physiological stages of lactation.
- Define Normal labour. Describe Mechanism of labour.
- Define Amenorrhoea with types, causes & management.
- Define Infertility & enumerate male causes of infertility
- Give Role of Agnus c. & Nat carb in infertility.
- Indication of two remedies for Agalata

4. Long Answer Questions. (Any two out of four)

[10×2=20]

- Define Episiotomy. Describe the types & procedure of it. Explain the Complications & management of complications with important 4 Homoeopathic remedies.
- Indications of 4 remedies for APH
- Explain Differential diagnosis for PV bleeding in 42 year female.
- Define Dysmenorrhoea and give classification in detail.

Long answer question (Any one from Q. No. 5, 6 and 7)

5. Define APH. Describe aetiology, D/D and indications of any 4 Homoeopathic remedies for it.

[1x20=20]

6. Describe in detail D.U.B. with types, investigations, Homoeopathic approach & General & Special measures in the management.

[1x20=20]

7. Write Tuberculosis of genital tract with pathology, clinicals, complications & management in detail.

[1x20=20]

Paper A

Q.1] Write Appropriate Answers. (Any 4 out of 5)

1 X 4 = 4

- Two important functions of Placenta
- Goodle's sign
- Define Abortion
- What is implantation?
- Define Eutoia & Dystosia
- Engagement of presenting part

Q.2] Write short notes on any 4 out of 6

4x4=16

- Aims & objectives of ANC
- Antepartum haemorrhage
- D/D of pregnancy
- Types of twin pregnancy
- Physiological stages of lactation

Q.3] Define Normal labour. Write down Mechanism of labour and explain management of second stage of labour. 1 x15=15

OR

What is Pre-eclampsia and Eclampsia? Write down etiology, D/D, complications and management of Hypertension during pregnancy.

SECTION B

ANSWER ANY 4 out of 6

1 X 4 = 4

- Define physiological infertility?
- What is Normal sperm count?
- Define Precocious & delayed puberty
- What is effluvium seminis?
- Define Menopause
- What is thelarche?

4x4=16

ANSWER ANY 4 OUT OF 6

- Semen analysis
- Investigations in tuberculosis of genital tract
- 4 differences between spasmodic and congestive dysmenorrhoea

4. Causes of male infertility
5. Cervical mucus tests
6. Causes of physiological amenorrhoea

ANSWER ANY 1

1x15=15

1. Define normal menstrual cycle & explain physiology in detail
- OR
2. Define & classify amenorrhoea and Explain Cryptomenorrhoea in detail
 - 3.

SECTION C

Q.NO 1) ANSWER 4 OUT OF 5

4X1=4

- a) Indications of Graphites for menopausal syndrome
- b) Write 2 indication of Pulsatilla in delayed menses
- c) Write 2 indication of Platina for infertility
- d) Indications of Collinsonia for Haemorrhoids during pregnancy
- e) 2 remedies for Retroversion of uterus

Q.NO.2) ANSWER 4 OUT OF 5

4X4=16

- 1) Write indications of any 2 remedies for Neonatal Jaundice.
- 2) Retention of urine during pregnancy – Causticum & Arnica.
- 3) Write important indications of Hamamelis & Carbo Veg for varicose veins during pregnancy.
- 4) Indications of 2 important remedies for Dysmenorrhoea.
- 5) Indications of Trillium pendulum & Secale cor for DUB

Q.NO.3) ANSWER THE FOLLOWING

1X10=10

What is Morning sickness? Write down the role of Cinchona officinalis, Colchicum, Ipecac & Phosphorus in Hyperemesis Gravidarum.

OR

Define Uterovaginal prolapse with the different terminologies & explain in detail the etiological factors, clinicals, Homoeopathic approach towards the condition.

Motiwala Homoeopathic Medical College & Hospital, Nashik
III BHMS Supplementary Batch Terminal Examination Internal Assessment Examination
Appearing in May 2017

Date: 14/02/2017

Sub: OBGY

Time: 09:30 To 12:30

Marks : 100

Section A

7x5 =35

Q.1] Write short notes on any 7 out of 10

- 1 Different Signs of pregnancy in first trimester
- 2 Routine Investigations done in 1st trimester of pregnancy.
- 3 .Define abortion. Describe different types of abortions in short.
- 4 Aetiology and types of breech presentation
- 5 Functions of Placenta
6. Homoeopathic Management of hyperemesis gravidarum
- 7 Homoeopathic management of Anaemia during pregnancy
- 8 What is gestational Hypertension? Write down Homoeopathic management of Pre-eclampsia.
9. Complications of anemia during pregnancy
10. Types of Ectopic pregnancy

Q.3] ANSWER ANY 1

1 x15=15

Define Labour. Enumerate various stages of labour, explain IIIrd stage of labour in details with it's management and indications of two Homoeopathic remedies for obstructed labour

OR

Define PPH. Explain aetiology, differential diagnosis, investigations & management of PPH and indications of any two remedies

SECTION B

ANSWER ANY 7 OUT OF 10

7x5 =35

1. Semen analysis
2. Hysterosalpingography
3. 4 differences between spasmodic and congestive dysmenorrhoea
4. Causes of male infertility
5. Cervical mucus tests
6. Indication of sepia & liliun tig in prolapse
7. Pessary test
8. Indication of mag phos & colocynth in dysmenorrhoea
9. Signs & symptoms of Tb gen. tract
10. Vaginal prolapse

ANSWER ANY 1

1x15=15

1. Define normal menstrual cycle & explain physiology in detail

OR

2. Define & classify amenorrhoea and Explain Cryptomenorrhoea in detail with indication of puls & nat mur for amenorrhoea

section A

Write Appropriate Answers. (Any 4 out of 5) 1 X 4 = 4

- 1) What is eclampsia & Dystocia
 2) What is Chadwicks sign
 3) Define APH
 4) Define hyperemesis gravidarum

Write short notes on any 4 out of 6 4x4=16

- 1) Signs of pregnancy in first trimester
 2) Placental site
 3) Types of Placenta
 4) Define Labour. Enumerate various stages of labour, explain III stage of labour in detail with its management
 5) Define APH. Explain aetiology, Differential diagnosis, investigations & management of APH.

SECTION B

ANSWER ANY 4 out of 6 1 X 4 = 4

- 1) Causes of physiological infertility?
 2. What is Normal sperm count?
 3) Management of inversion of uterine fundus
 4. What is effluvium seminis?
 5) Superficial dyspareunia
 6. leucorrhoea

ANSWER ANY 4 OUT OF 6 4x4=16

- 1) Semen analysis
 2. Hysterosalpingography
 3) Differences between spasmodic and congestive dysmenorrhoea
 4) Causes of male infertility
 5. Cervical mucus tests
 6. Causes of physiological amenorrhoea

ANSWER ANY 1 1x15=15

1) Describe normal menstrual cycle & explain physiology in detail

OR

2) Describe & classify amenorrhoea and Explain Cryptomenorrhoea in detail

SECTION C

Q.1) ANSWER 4 OUT OF 5 4X1=4

- 1) Indications of nat mur in infertility
 2) Write 2 indication of Platina for infertility
 3) Write 2 indication of Alumina for leucorrhoea
 4) Write 2 indication of Pulsatilla in delayed menses
 5) Indications of Collinsonia for Haemorrhoids during pregnancy

Q.2) ANSWER 4 OUT OF 5 4X4=16

- 1) Write indications of any 2 remedies for anaemia during pregnancy.
 2) Write indications of any 2 remedies for deficient lactation
 3) Write indications of 2 remedies for episiotomy wound healing
 4) Write indications of 2 important remedies for Dysmenorrhoea.
 5) Write indications of 2 important remedies for dyspareunia

Q.3) ANSWER THE FOLLOWING 1X10=10
 1) What is Morning sickness? Write down the role of Arsenic album, China, Colchicum & Phosphorus in Hyperemesis Gravidarum.

OR

2) Describe Uterovaginal Prolapse with indication of 4 remedies for the same

Date: 21/10/2016

Sub: OBGY - II

Time: 02:00 To 05:00

Marks : 100

Q.1. any 10

(20)

1. 2 Causes for male infertility
2. 2 symptoms of Ca cervix
3. 2 complications of fibroid uterus
4. 2 investigation in tb genital tract
5. 2 fate of acute salpingoophoritis
6. Define leucorrhoea
7. Define contraception
8. Define endometriosis
9. Degrees of uterovaginal prolapsed
10. Types of pessaries
11. Membranous dysmenorrhoea
12. Schillers test
13. Mittle schmerz syndrome
14. Normal sperm count
15. Define menstrual cycle

Q.2. Write short notes (Any 4)

(20)

1. Vaginismus
2. Retroverted gravid uterus
3. USG
4. Female contraceptives
- 5) Post Menopausal bleeding
6. Normal menstrual cycle.

Q.3. Short notes (Any 4)

(20)

1. Pessary test.
2. Pap's Smear & Scillers test.
3. Ca Vulva
4. Spasmodic dysmenorrhoea
- 5 Leucorrhoea.
6. Low backache

Q.4. S.A.Q. (Any 2)

(20)

1. Pruritus Vulva.
2. Cryptomenorrhoea.
3. Cervical ectopy
4. Physiological amenorrhoea.

Q.5. Describe in detail D.U.B. with types, investigations, Homoeopathic approach & General & Special measures in the management

(20)

Q.6. Define Amenorrhoea with its classification in detail & Give names of 5 remedies for the same

Q.7. Define uterovaginal prolapse with the different terminologies & explain in detail the aetiological factors, clinicals, Homoeopathic approach & Surgical treatment.

III BHMS Regular Batch Terminal Examination Internal Assessment Examination Appearing in Oct 2015

Date: 09/10/2015

Sub: OBGY II

Time: 2.30 to 05.30 P.M.

Marks : 100

1. Answer any 10

20

1. Define infertility & sterility
2. 2 causes for prolapse uterus
3. Define dysmenorrhoea
4. What is effluvium seminis
5. 2 causes for male infertility
6. 2 causes for low bachache
7. What are nabothian follicles
8. What is fridgidity
9. Define impotency
10. 2 causes for dycpareunia
11. What is cervical ectopy
12. Define hydatidiform mole
13. Define fistula
14. Classify dysmenorrhoea
15. What is cryptorchism

2. Answer any 4

1. Fern & Spinbarkeit test
3. Paps smear
5. Predisposing factors for Ca cervix

2. Investigations for Tb genital tract
4. Hysterosalpingography
6. Investigations in Hydatidiform mole

20

3. Answer any 4

1. Hysterosalpingography
3. Management of hydatidiform mole
5. Leucorrhoea

2. Causes for female infertility
4. Causes of Pruritus vulva
6. Stages of Ca cervix

20

4. Answer any 2

1. Pessary test
2. Signs & symptoms of uterine inversion
2. 4 differences between spasmodic and congestive dysmenorrhoea
3. Causes of menorrhagia

20

Explain any one out of 5, 6, 7

20

Explain uterovaginal prolapse with

- a) causes b) degrees c) complication d) management.

Define DUB and Explain Metropathia Haemorrhagica in detail

- a) Predisposing factors b) pathology,
 c) clinicals d) investigations & management

Explain Ca endometrium

- a) predisposing factors b) stages,
 c) clinicals d) investigations & management

III BHMS 2nd Terminal Internal Assessment Examination Appearing Nov-Dec'2015

MUHS Examination [June'2015]

Date: 23/06/2014

Sub: OBGY

Time: 02.00 TO 05.00

Marks : 100

PAPER-A

1] Write Appropriate Answers. (Any 4 out of 5)

- Two important functions of Placenta
- Define fertilization
- Aetiology of Polyhydramnios
- Complications of Oligohydramnios
- Define Eutola & Dystosia
- Lie & presentation of fetus

1X4=4

2] Write short notes on any 4 out of 6

- 1) Lochia
- 2) Aims & objectives of ANC
- 3) Signs of Pregnancy in 1st trimester
- 4) Indications of P/V & P/sp examination
- 5) Physiology of Lactation

4x4=16

3] Define Normal Labour. Explain various stages of labour with its management

15

SECTION-B

ANSWER ANY 4 out of 6

- 1) What is physiological infertility?
- 2) What is Normal sperm count?
- 3) What is proclivata?
- 4) What is effluvium seminis?
- 5) What is hypomenorrhoea?
- 6) What is the larche?

4

ANSWER ANY 4 OUT OF 6

- 1) Pessary test
- 2) Signs & symptoms of uterine inversion
- 3) 4 differences between spasmodic and congestive dysmenorrhoea
- 4) Causes of menorrhagia
- 5) Cervical mucus tests
- 6) Causes of physiological leucorrhoea

16

ANSWER ANY 1

Explain uterovaginal prolapse with causes, degrees, complication and management.

OR

Define DUB and Explain Metropathia Haemorrhagica in detail

15

SECTION-C

Q.1] ANSWER 4 OUT OF 5

- a) Write 2 indication of Kreosotum for leucorrhoea
- b) Write 2 indication of Pulsatilla for Amenorrhoea
- c) Write 2 indication of Hamamelis for varicose veins during pregnancy
- d) Write 2 indication of Fer.phos for anaemia during pregnancy
- e) Write 2 indication of Platina for infertility

4X1=4

Q.2] ANSWER 4 OUT OF 5

- 1) Haemorrhoids during pregnancy - Collinsonia & Nux vomica
- 2) Retention of urine during pregnancy - Causticum & Arnica
- 3) Menopausal syndrome - Graphites & Lachesis
- 4) Hyperemesis - Colchicum & Ipecac
- 5) Delayed puberty - Calc carb & Sepia

4X4=16

Q.3] ANSWER THE FOLLOWING

Define ANC and write down the role of Arsenic album, Silicea & Nat mur during ANC

Date: 12/07/2021

Sub: Surgery

Time: 2. 30 to 5.30 P.M.

Marks : 100

Q.1] Write Appropriate Answers (Any 10)-----10X2=20

- 1] What is anti-bioma.
- 2] Define Ranula.
- 3] Cancrum Oris
- 4] Difference between healing with primary intention and healing with secondary intention.
- 5] Write 4 names of midline swelling in neck.
- 6] Define basal cell carcinoma.
- 7] Define Reactionary Hemorrhage
- 8] Difference between healing of Calendula and Hepar Sulph.
- 9] Name 2 drugs with 2 indications each for Cardiogenic Shock
- 10] Name 2 drugs and write 2 indications of each for Fibroadenosis.
- 11] Give 4 indication of Phosphorus for Hemorrhage
- 12] Give 4 indications of Carbo Veg. in shock.
- 13] Give 4 indication of Arsenic in surgical ailments.

Q.2] Write short answers. (Any 4) -----4X5=20

- a] Indications and complications of Blood transfusion
- b] Hiatus Hernia
- c] Acute Peptic Ulcer
- d] Difference between Major and Minor recurrent aphthous stomatitis
- e] Indications of Merc Sol in Aphthous Ulcer.
- f] Indication of Spongia and Thyroidinum in Thyroid affection.

Q.3] Write short answers. (Any 4) -----4X5=20

- a] Enumerate DD's of Dysphagia and its classification.
- b] Write short about Disseminated Intravascular Coagulation.
- c] Clinical features and investigation in Acute Pancreatitis
- d] Mastalgia
- e] Indications of 2 homoeopathic medicines in Cholelithiasis
- f] Indications Opium and Plumbum Met in Intestinal Obstruction

Q.4] Write Any 2-----2X10=20

- a) 50 year old female came with inguinal swelling. How will you investigate the case.
- b) D/D's of Lump in the breast.
- c) Define Hemorrhoid with its types, causes, clinical feature, investigation and management.

Write any one from Q.No.5& 6 -----1X20=20

Q.5] A 70 year old male following an accident undergone an open injury with huge blood loss. Write the approach to management of this case.

Q.6] A 30 year old lady complaining of acute onset of pain in right side of abdomen with nausea, Vomiting. How would you like to investigate this case. What are differential diagnosis and any investigations you would like to do? Write in detail the management of this case with indications of 2 Homoeopathic medicines for same.

Date: 10/02/2020

Sub: Surgery

Time: 10.30 to 1.30 P.M.

Marks : 100

- Q.1] Write Appropriate Answers (Any 10)-----10X2=20**
- 1] Define Abscess
 - 2] Difference between Sinus and Fistula
 - 3] Indications of septoplasty
 - 4] Fox's sign
 - 5] Define episcleritis
 - 6] Barrots oesophagus
 - 7] Reactionary Hemorrhage
 - 8] Name two Homoeopathic drugs for Burns
 - 9] Saints triad
 - 10] Communitid fracture.
 - 11] Give 4 indication of Chelidonium in gallstones.
 - 12] Two uses of tongue depressor
 - 13] Give 4 indication of Calcarea flour in fracture
- Q.2] Write short answers. (Any 4)-----4X5=20**
- a] Ophthalmia neonatorum
 - b] GORD
 - c] Define ulcer and enumerate its type with one suitable example.
 - d] Raynauld's disease
 - e] Colle's Fracture.
 - f] Indication and complications of blood transfusion.
- Q.3] Write short answers. (Any 4)-----4X5=20**
- a] DD's of otalgia
 - b] Homoeopathic approach in splenic disorders.
 - c] Compartment syndrome
 - d] Hypermetropia
 - e] Indications of 2 homoeopathic medicines in Dacryocystitis.

 - 3] D/D's of dysphagia.
 - 4] Supracondylar fracture.
- 2.5] Write any one from Q.No.5, 6 & 7-----1X20=20
- 1] Discuss in detail about Acute Ottits media under following headings.
 - Aetio- Pathogenesis
 - Sign & symptoms
 - Investigation
 - Homoeopathic management
- 2.6] Define cataract, give its classification, clinical features and management of Senile cataract.
- 2.7] Define Peptic Ulcer. Give its clinical features, investigations, complications, management and write two indicated Homoeopathic remedies for the same.

ALL THE BEST

Date: 13/02/2017

Sub: Surgery

Time: 09:30 To 12:30

Marks : 100

Q.1. Answer the following (Any 5)

5X4=20

- Define fracture, Dislocation, Subluxation & Sprain
- Define Bacteremia, Septicemia pyaemia & toxemias
- What is sepsis & asepsis
- Describe calendula & Arnica in CLW condition
- Enumerate the examination point in ulcer
- Describe Nitric Acid & Mersol in ulcer

Q.2. Answer the following (Any 4)

4X5=20

- Raynanud's Phenomenon
- D/D of Dysphagia
- Differences in Acute Cholecystitis & chronic cholecystitis
- Acute pancreatitis with indications of Acid phos & discorea for the same
- Describe urtica urens & cantharis in 1st degree burn.

Q.3. Answer the following (Any 4)

4X5=20

- Paronychia
- Volvulus
- Chelidonium & calc. carb in gall stone
- Opium & Raphanus in internal obstruction
- Borax & Arum triph. in stomatitis

Q.4. Answer the following (Any 2)

2X10=20

- Define shock? Pathophysiology of hypovolumic shock?
- Give indications of Ars album & crotalus horidus in gangrene?
- D/D's of bleeding per rectum in detail

Q.5. Answer the following (Any 1)

1X20=20

- Describe the inflammatory swelling in detail? With indication of one Homoeopathic medicine for each condition?
- Describe peptic ulcer in detail with 2 homoeopathic drug indication for duodenal ulcer?

Q. 1. Answer the following (Any 10) 10X2=20

1. Define Bruise?
2. Define Abscess?
3. Define Antibiotoma?
4. Define Malunion?
5. Define Lymphangitis?
6. Define Bacteremia
7. Define Aclasia Cardis
8. Define Varicocele
9. Complication of wound healing
10. Define Callus ulcer.
11. Write local factor for wound healing.

Q.2. Answer the following (Any 4) 4X5=20

- a) Ludwigs Angiana
- b) Describe Arnica And Belladonna in Contusion
- c) Sebaceous Cyst
- d) differentiate between Keloid and Hypertrophied Scar
- e) Describe Belladonna And Hepa Sul. In Abscess.

Q.3. Answer the following (Any 4) 4X5=20

- a) Tetanus
- b) Carbuncle
- c) Lipoma
- d) Dermoid Cyst
- e) Describe Nitric acid and Merc Sol. In non healing ulcer.

Q.4 Answer the following (Any 2) 2X10=20

- a) Write Indication and Complications of Blood Transfusion
- b) Describe pathophysiology of Hypovolemic Shock
- c) Describe Supracondylar fracture in detail.

Q.5 Answer the following (Any 1) 1X20=20

- a) Describe Peptic Ulcer in detail?
- b) Define Varicose Vein? Enumerate Causes, Sign, Symptoms, Complication and Management for the same.

Short Answers question

Answer the following (Any 10 out of 15)

[10X2=20]

- Q.1)
- What is Achalasia Cardia?
 - What is Curlings Ulcer
 - What is Murphy's Sign.
 - What is Grey turner sign.
 - What is Goodsall's rule?
 - Write rule of '5' in burn?
 - Write is Sinus?
 - What is Mortelli's ulcer?
 - Frostbite.
 - Define drug for Hypovolumic shock?
 - Ranula
 - Delayed primary suture.
 - Gas Gangrene.
 - Indications of Borax in Stomatitis.
 - Indications of Aloes Hemorrhoids.

Answer the following (Any 4 out of 5)

[4X5=20]

- Q.2)
- Intussusceptions.
 - Factors responsible for wound healing?
 - Difference between Superficial & Deep burns?
 - Describe Cantharis & Calendula in Burn?
 - Describe type of Hemorrhage & Management.

Answer the following (Any 4 out of 5)

[4X5=20]

- Q.3)
- Arsenic & Phosphorus in Acute gastritis.
 - Dermoid Cyst.
 - Lipoma.
 - Belladonna & Hepar Sulph in Abcess.
 - Carbuncle

Long Answers Question

Answer the following (Any 2 out of 3)

[2X10=20]

- Q.4)
- Define shock & type of shock? Pathophysiology of hemorrhagic shock?
 - Describe tetanus in detail.
 - Difference between healing, Non healing & Callus?

Long Answer question any 1 out of Q.5, Q.6

[1X20=20]

Answer the following (Any one)

- Q.5) 38 years obese female coming with pain in Right hypochondriac region Describe differential diagnosis and Homoeopathic Approach towards it.
- Q.6) Describe the following –
Scope of Homoeopathy in Surgery.
Limitation of Homoeopathy in Surgery.
Pre-operative management with Homoeopathy.
Post-operative management with Homoeopathy.
