PROLOGUE

As a disease, cancer can surely confound a patient's physical and mental capacities to cope and make one think as if there's no way out of impending pain and untimely death.

Naturally, a veritable mix of positive, negative and interpretation associated with the disease has warranted the development of the patient community. However, the vibrant, vibrant, vibrant professional, whether following conventional wisdom or otherwise, from the responsibility to identify the patient of both, body and mind trauma associated with the disease.

CANCER - ALARMING STATS

According to recent reports by World Health Organization, Cancer is the second leading cause of death globally, and is responsible for an estimated 8.5 million deaths in 2016. Globally, about 1 in 5 deaths is due to cancer. Approximately 70% of deaths from cancer occur in low- and middle-income countries. The most common cancers are Lung (1.3 million cases), Breast (1.2 million cases), Colorectal (1.1 million cases), Prostate (1.0 million cases), Skin cancer (non-melanoma) (1.04 million

cases), Stomach (1.0 million cases). The most common causes of cancer death are cancer of Lung (1.3 million deaths), Colorectal (860,000 deaths), Stomach (520,000 deaths), Liver (390,000 deaths) & Breast (347,000 deaths).

ISHATO 2019 AND THE QUEST TO FIND VIABLE ANSWERS TO THE CANCER PROBLEM.

ISHATO 2019 is conceived as a beacon call to the entire healthcare community with a view to deliberate, decode and defeat cancer in ways that can be both, joyful and powerful. The organizing committee at Homoeopathic Medical College, and Hospital, in collaboration with the patients and immediately interested Homoeopaths, Dr. Farah L. Mehta, have joined forces in a unique as International Seminar aimed at sharing the collective knowledge, experience and vision of all key stakeholders in health care and through collective effort, propagate the use of the Integrative Therapies in the treatment of cancer. To effectively address the long burden of cancer in all its manifestations across the world, the issue behind our initiative is to create an enduring think tank of ideas, thoughts, knowledge and resources that will

continue to consolidate the health care community's ability against the dreaded ailment. It is widely known, in today's scenario, that conventional therapies have limited, if any, true impact in terms of their efficacy, both in contained cancer and in late stage effects. Any single protocol or therapy, can, therefore, in no certain terms, promise a permanent cancer safeguard against cancer.

In a scenario where a number of professionals are pursuing individual efforts in cancer, SHATO 2019 aims to provide a unique platform to consolidate diverse ideas, systems and programmes aimed at the management and treatment of Cancer. As part of the integrative seminar, we have invited national speakers and proven authorities from across the globe to share their unique wisdom, findings, skills and experience in the therapeutic management of cancer.

Over a period of 3 years, the collective strategies, know-how, techniques and therapies generated during these consecutive SHATO Seminars will be compiled in the form of a practical **Manual for Cancer Management**. Through Integrated medicine, diagnosis for the benefit of health care professionals, students and community at large, SHATO 2019 also aims to set an eye opener for the conventional health care practitioners, the 3-5 day (and) 6-7 day intensive health care students, a quality life for health support teams and a wellspring of hope and inspiration to patients the way forward.

are same all information is
manipulated of case as she
was not regular in meetings
also she was not sincere during
whole internship period.

This matter is already spreaded
in interns so some student will
take advantage of this so we
should take action against this
matter so that the discipline
will be maintained. & followed.

This matter will discuss with
Dr. Faraz sir as soon as possible
and solution will be drawn.

To. Kundu Ma'am [Commener and Panel & Teachers]
Respected Ma'am,

I am writing this letter to confess that I have manipulated cases, I prescribed medicine by own and took sign from Dr. Prasad while because was in outposting. Due to short time, I couldn't manage follow up of students or patients and some kind so I did so. I apologize for this. And even running shortage of gargulis cases so I have to take calls and sign from Prasad Circle usually follow up were on calls or prior. And signature later on. and now I may not have entry. Sorry for this.

Me Hazar, Me Bodke kindly note,

- ① Ask for documents while she was going for out posting.
- ② Give show cause notice to Dr. Prasad.

7/10/20

② She will have to report 6 months intention 13/10/20

TO,
The-co-ordinators (Panel-B)
M.H.M.C.,
Jashok.

Subject:- About the dissertation work.

Respected Sir,

We the interns of panel-B group wants to bring into notice that, some of the interns are not doing deputed work and if it is allotted to them, it is not upto the mark they quite often remain absent during scheduled work.

It has influenced the work of whole panel.

Gulraj Attar, Varsha Kumbhar & Pranoti Bhojra are helping to some extent, but Yasha Anwar & Savitā Chavan are not at all involved during the dissertation work.

Sir, it is a humble request to look into the matter personally.

Thanking you!

Yours sincerely,
Panel-B
