

**2.6.3**

*The teaching learning and assessment processes of the Institution are aligned with the stated learning outcomes.*

Homoeopathic Medical education has now becoming outcome based education. Motiwala (National) Homoeopathic Medical College strives hard to ensure outcome based learning through alignment of BHMS program with teaching learning and assessment process.

The alignment of learning outcome is achieved with following activities students do during the course.

During internship we allow intern to do independent case taking. Case analysis has to based on seven fundamental principles of Homeopathy. Namely law of similia, law of simplex, law of minimum, doctrine of drug proving, theory of chronic diseases, theory of vital force and doctrine of drug dynamisation. They learn how to apply these cardinal principles.

During case study, case processing is done under the following headings:

**Analysis of the case:** Analysis is the comparison between two or more objects; here we compare & differentiate the symptoms of the patients i.e. process of individualization from the symptoms of the disease.

**Evaluation of the symptoms in the case:** Evaluation is the special technique for gradation of symptoms, according to their values.

**Synthesis of the case:** Synthesis is utilization of case analysis, evaluation and applying potential differential field to reach the final remedy after differentiating the closely coming medicines.

This make the student built skills required to become competent homoeopathic prescriber.

In addition Interns also acquire knowledge of homeopathic software and its utility in formulation of rubrics, repertorization and coming to differential sets of remedies. It also helps in using different material medica book to finalize the choice of remedy for prescription.

Interns learn miasm as fundamental cause that persists in human beings with chronic ailments. These are Psoric, Sycotic and Syphilitic miasms. To decide Posology students understand vital factors such as Susceptibility and Sensitivity for potency selection, dose repetition and duration of prescription.

Interns are capable of identifying his or her own area of interest; able to explore a subject in depth; manage a research project; define a suitable question, and use the appropriate research tools through dissertation. Ethical values like Respect for autonomy – the patient has the right to refuse or choose their treatment. Beneficence – a practitioner should act in the best interest of the patient. Non-maleficence – to not be the cause of are practiced during the dissertation.

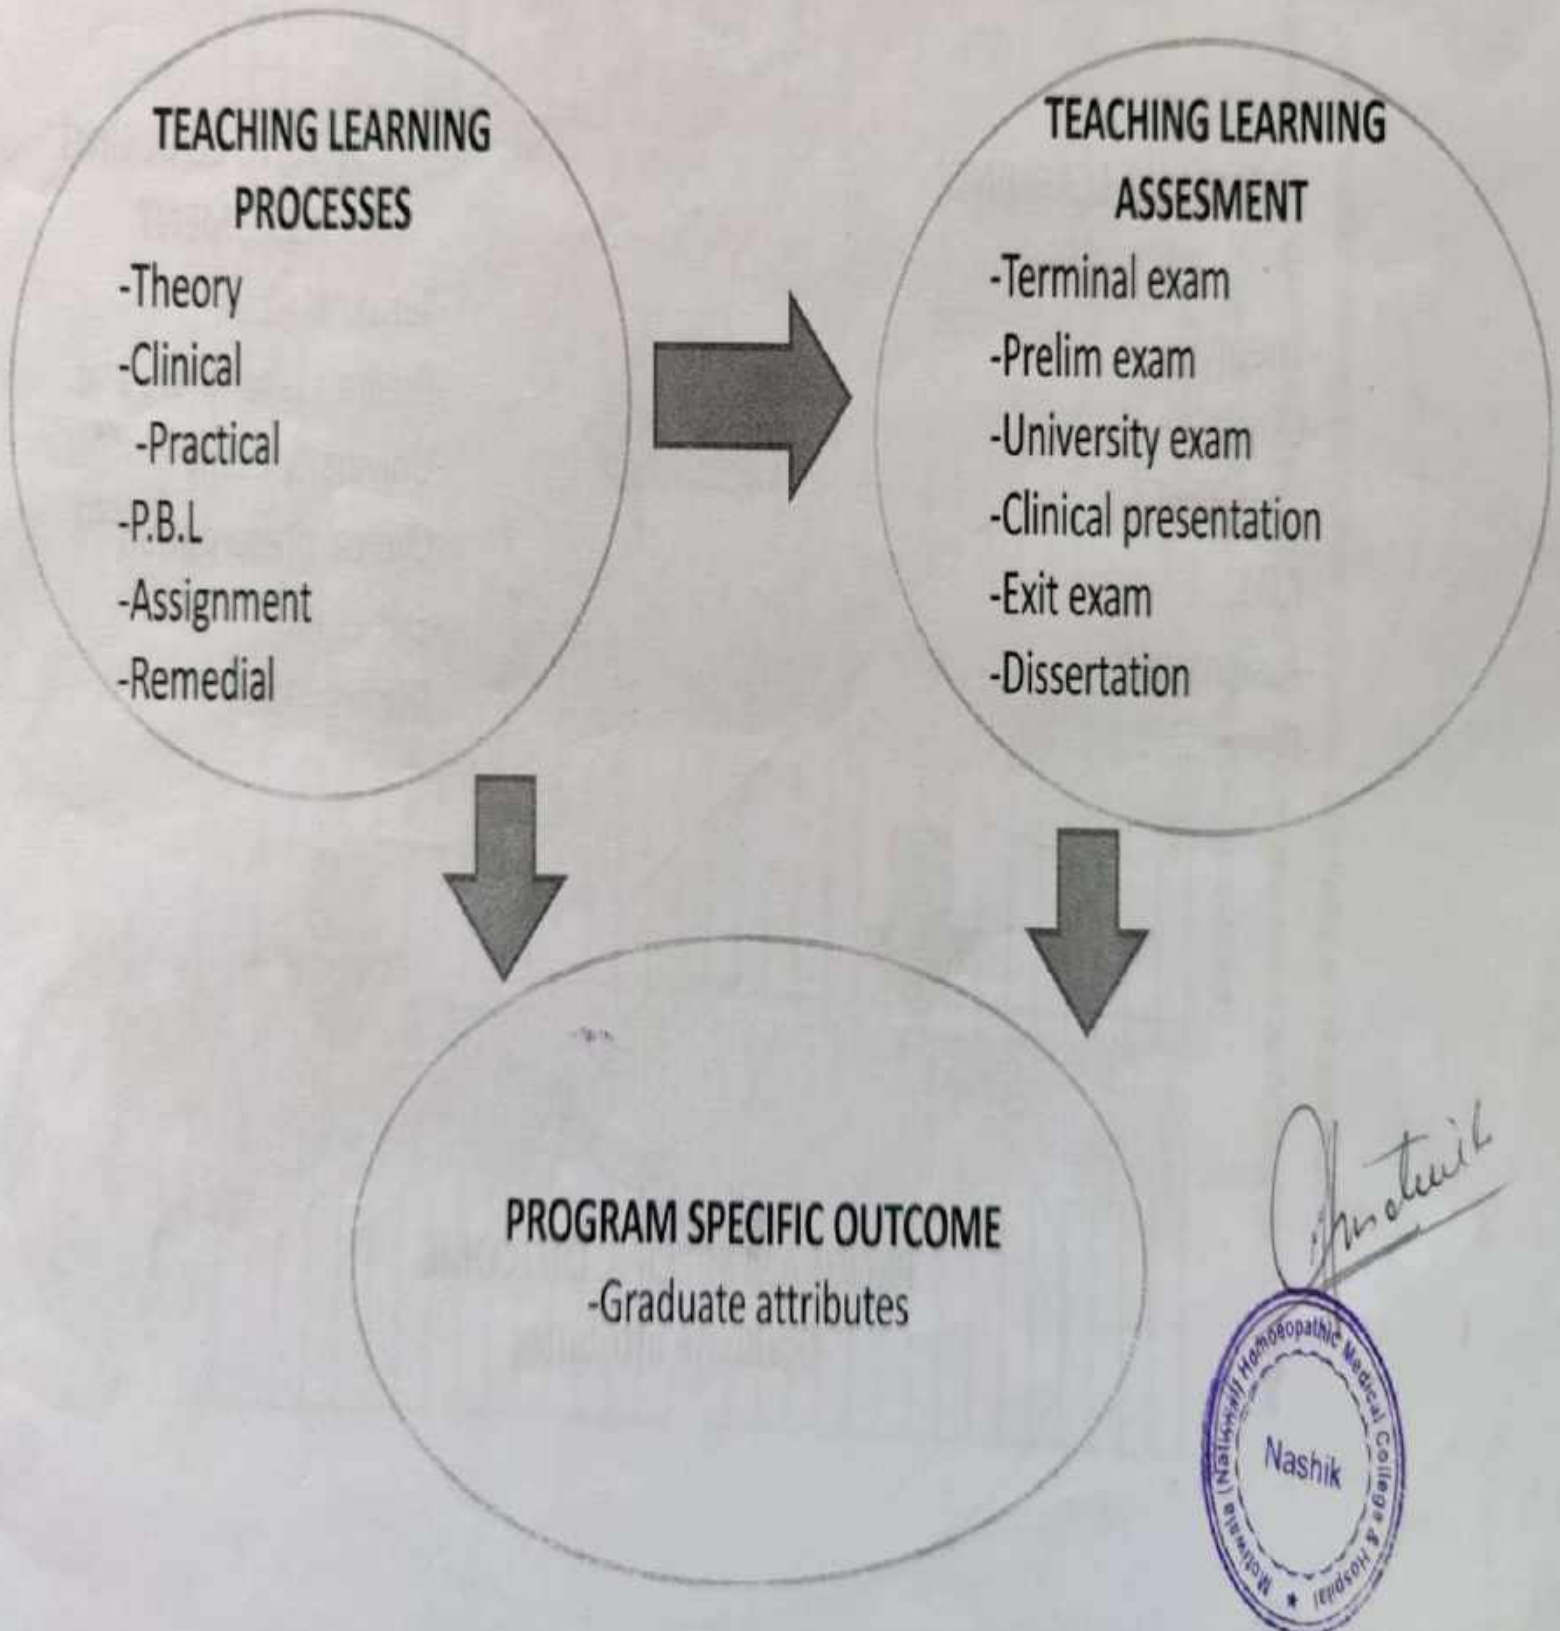

Whole process from case receiving till final prescription and second prescription enables students to enrich values like humility, respect, being kind and compassionate.

## Mapping of Teaching learning assessment processes

Motiwala Homoeopathic Medical College and Hospital, Nasik

Project : Curriculum based Interns Exit Exam

Objectives :-

1. Development of Interns in all the three domains ( a.Psychomotor b.Cognitive c.Effector )
2. Setting International standards in Preparing Interns for there future competitive exams (Medical and Non Medical as well )
3. Scientific Outlook development for Homoeopathic Science
4. Aptitude development
5. Structure of Exit exam system 1.Each Interns as they go undergo 365 days rotator internship has to undergo an Intern Exit exam mandatory

2. As the Interns has to go in for dissertation of 100 marks

3. Interns exit exam system will be included in the 100marks itself

4. Dissertation will be 50 mark and Exit exam of 30 marks and 20 marks for Journal

5.Components of exit exam

A. Cognitive domain development

B. Psychomotor domain development

C. Effector domain development

6. Preclinical Department ( .Physiology & bio chemistry ,Anatomy , Pharmacy , pathology , Forensic medicine etc )

7.Clinical department ( Surgery , Obstetrics&Gynaecology, Medicine, Pediatrics)

8.Homoeopathic Materia Medica . Organon,of Medcine & Philosophy ,Repertory

9. All departments will be contributing in all domains

10. Methodology of Exit Exam :-

a. criterion-referenced test :-

is a style of test which uses test scores to generate a statement about the behavior that can be expected of a person with that score

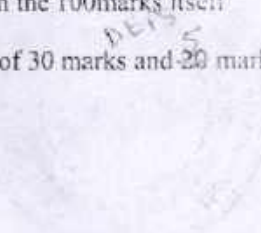

b. Questions will be in form of MCQ total 30 ( DOPS & DEPS )

c. No negative marking d.each MCQ will have 4 options

e.assessment will be done by assigned team of Teachers

with the correct answers.

Applicable to 2021  
waiting in February 2021  
without 30 days before the  
date of completion.  
1/11/21

Practical activity  
should be included in the  
clinically useful terms  
To prepare in questions being

John  
Agarwal

Guide lines for Evaluation of Exit exam

*Handwritten signature*

- \* Proving
- \* Communication Skill
- \* Confidence level.

1. Compose of 5 members
2. 1 Members from clinical department
3. 1 member from preclinical department
4. 1 member from organon department
5. 1 member from HMM department
6. 1 member from Repertory department
7. Preredule evaluation will be conducted in relevant setting decided at the time of evaluation
8. Evaluation will be according to the basic 3 domains of study should include DOPS & DEPS too
9. Cut score is 70%
10. Pre prepared questions made by evaluators will be useful .
11. If individual intern has not achieved the cut score of 70% ,He/She has to again reappear and achieve the score
12. Only after the intern pass this evaluation system will be qualified for dissertation

- Extension Activity
- Inter Dept Activity.

## Distribution of Skills

Medicine (Dr. Kundu, Dr. Bhalerao)	Surgery (Dr. Yadav, Dr. Bagmar)	Dr. Prashant Ambhore	OBG	Dr. Faraz Motiwala	Dr. Khushmann Vaidhya
Thermometer	Proctoscope	ECG (Procedure and basic reading)	Measuring tape	Dressing	Auscultation of heart
Sphygmomanometer	ENT examination with instruments	Ryle's tube	Antenatal care	Suturing	Examination of CVS
Stethoscope	Examination of abdomen	Catheterization	Newborn examination, Apgar score	Examination of musculoskeletal system	Examination of renal system
Tuning fork	Examination of head injury	X-ray basics	Episiotomy	Examination of head injury	Examination of CNS, Percussion hammer
Measuring tape	Examination of hernia	Endotracheal intubation	Foetal heart sounds		Examination of pulse
Examination of respiratory system					General Examination
Examination of GIT					
Examination of hematopoietic system					
Examination of endocrinal system					

We can call a radiatruian and arrange for  
an entire day of clinical training. It will be useful  
for our PG's as well.  
Need confirmation from Motiwale Sir to proceed further.

*Motiwale*
