ORDINANCE

GUIDELINES FOR Clinical Presentation's EVALUATION CRITERIA

JUDGING CRITERIA	DESCRIPTION	POINTS
1.PERSONALITY	<p>1.GROOMING Grooming means dressing well, to be presentable to others. It includes well-dressing sense and proper hair cut. Wear clean clothing and polished shoes.</p> <p>2.ATTITUDE The way he/she introduce himself /herself. How well he/she handle himself /herself with team members</p> <p>3.COMMUNICATION SKILL INTERACTION, PROFESSIONAL VOCABULARY, LANGUAGE QUALITY, FLUENCY, PRONUNCIATION, PRESENTATION</p> <p>Use eye contact: When speaking with someone, look at them in the eyes so that they know you are both trustworthy and engrossed in the conversation. Don't keep your focus to read PPT.</p> <p>Ask open-ended questions: Questions that don't yield a simple 'yes' or 'no' response.</p> <p>Match mood, body language, and voice tone: Try to adapt your mood, body language, and voice tone to match the person with whom you are speaking or as per the intent of topic.</p> <p>Attentively listen: Avoid looking at your phone or watch, and don't interrupt the speaker.</p> <p>Use friendly body language: Smile, uncross your arms, don't put your hands in pocket and relax your shoulders, arms, and legs. Stand in an open stance.</p> <p>Give compliments: everyone loves hearing what others admire about them!</p>	5+5+5=20

	<p>4.DRESS CODE:</p> <p>FOR MALE:</p> <p>SUIT OR BLAZER</p> <p>SHIRTS: As a rule, the simpler the better.</p> <p>TROUSERS: it should be appropriate to shirt.</p> <p>TIE: College tie / colour suitable with your dress.</p> <p>SOCKS: Wear clean socks to avoid bad odour</p> <p>SHOES: Wear a good pair of leather shoes- black and brown/tan shoes. Shoes must be polished. Do not wear shoes that look casual. Also, do not wear shoes with worn out heels.</p> <p>BELTS: Wear only formal belts with a sleek buckle.</p> <p>WATCHES: Preferably wear leather strapped watches. If you wear a metal strapped watch, make sure that it fits the wrist well.</p> <p>FOR FEMALE:</p> <p>BLAZER</p> <p>SALWAAR KAMEEZ: Avoid plunging necklines, sleeveless and tight fitting clothes</p> <p>SHOES/SANDALS: wear a pair with smaller heels or a flat pair. Stick with a black/brown pair. Do not wear colorful sandals.</p> <p>ACCESSORIES:</p> <p>Earrings: Wear studs or small rings. Do not wear hoops or dangling earrings</p> <p>Bracelets/Bangles: You may wear either a bracelet or a bangle. Avoid both. Avoid chunky bracelets or too many bangles.</p> <p>Rings: Keep them simple and not chunky.</p> <p>Chains: You may wear thin chains with small lockets. Do not wear ornamental/ chunky jewelry.</p>	
<p>2.DIFFICULTY LEVEL OF PRESENTATION & INNOVATION</p>	<p>It should be Novel.</p> <p>Appropriate details of the case, including, diagnosis, correlation of investigation, assessment, findings, and so on.</p> <p>Mention interventions used in detail</p> <p>Emphasizes why the case is important to medicine.</p> <p>Adequate Recent updated literature review, references pertinent to the case.</p> <p>Mentions the limitations related to the case.</p> <p>Implication of case with a core key message.</p>	<p>20</p>

3. DIFFERENT METHODS OF PRESENTATION	<p>1. CHALK AND TALK</p> <p>2. POWER POINT PRESENTATION Use minimum required, readable text on each slide. Use contrasting colours Use a big enough font Be able to jump to any slide Create graphics (such as tables and charts) appropriately Proper Hyper linking for video photo etc.</p> <p>3. POSTERS Fonts are consistent and are large enough to be read from a distance. Use a flow chart for your display. Don't overwhelm the viewer with excessive amounts of information.</p> <p>4. MODELS Model should be appropriate to the topic It should be demonstrable and innovative</p> <p>5. VIDEO CLIPS It should be only of 2 min.</p>	<p>5+5+5+5=20</p>
4. DEPTH OF SUBJECT MATTER	<p>Here are a few key words to measure the depth of subject matter. Approximately 6 marks for each Level.</p> <p>Level 1 - (Recall - measure, recall, calculate, define, list, identify). This category require students to recall information and/or reproduce knowledge/skills</p> <p>Level 2 - (Skill/Concept – graph, classify, compare, estimate, summarize). This level requires students to compare and contrast, describe or explain, or convert information. It may involve going beyond describing, to explaining how or why. At this level students may need to infer, estimate, or organize.</p> <p>Level 3 - (Strategic Thinking - assess, investigate, formulate, draw conclusions, construct). At this level students are required to use higher order thinking processes. They may be asked to solve real-world problems, predict outcomes, or analyze something. Students may need to access knowledge from multiple subject areas to reach a solution.</p> <p>Level 4 - (Extended Thinking - analyze, critique, create, design, apply concepts). <u>Higher order thinking skills</u> are essential at this level. Students must employ strategic thinking to solve problems at this level. Students will need to conduct, and synthesize as well as manage at level</p>	<p>25</p>

Subject: Report of **Interns Exit Exam (Assessment) of Regular batch Interns 2020-2021**

Respected Sir,

Following are the synopsis

- Date of Assessment :11/02/2021 to 16/02/2021.
- Departments conducted the Assessments are Medicine ,Surgery , OBGY,
- Dr Faraz .F.Motiwala was assessor to all Interns
- Dr Prashant Ambhore was assessor to all interns
- Assessment was done under **Cog native Domain(30 marks) , Psycomotor Domain (30 marks) , Effector Domain (30 Marks) , Grooming & Self confidence (10 marks)**
- Total Mean of each domain marks were worked out. And Grades were allocated in final marksheet .
- Grading used : Grade A+ (80 marks and above), Grade A (71 to 80 marks), Grade B(61 to 70 marks), Grade C(50 to 60 marks) .
- Dr Kirti and Dr Deepali helped in this activity .
- Interns were divided in 6 batches and a time table of assessment was made accordingly .
- Venue for conduct of Exam were Clinical departments and G M Memorial Hospital .
- Coordinator Interns Exit Examination : Dr Sachin Bhalerao .
- Please suggest and Guide for improvisation in this process

Thankyou

Yours Faithfully

Dr Sachin Bhalerao

Reader Department of Medicine

Coordinator Interns Exit Exam

*Dr. Bhalerao -
The progress report should mention
the 4 criteria assessed. make it
in the form of a recommendation letter.
Please put up by
27/3/21.*

Notice for Interns 2021 Batch

Intern Exit Assessment schedule
(Date: 12th to 16th November 2021)

MHMC/Interns/Exit Exam/19/10/2021

Date:- 28/10/2021

Objectives:-

1. Development of Interns in all the three domains^{skill}
 - a. Psychomotor
 - b. Cognitive
 - c. Affective
2. Setting International standards in Preparing Interns for there future competitive exams (Medical and Non-Medical as well)
3. Scientific Outlook development for Homoeopathic Science
4. Aptitude development

Structure:

100 marks Assessment (30mrks Cognitive Domain, 30mrks Psycomotor Domain, 30mrks Effector Domain, 10mrks Grooming Communication Skill Confidence)
Qualification for dissertation is 70%,

Syllabus:

1. Preclinical subject (Physiology & bio chemistry, Anatomy, Pharmacy, pathology, Forensic medicine etc)
2. Clinical subject (Surgery, Obstetrics & Gynecology, Medicine, Pediatrics)
3. Homoeopathic MateriaMedica, Organon of Medicine & Philosophy, Repertory

Evaluators: - 1. Dr. Faraz Motiwala *Faraz*
2. Department of Medicine
3. Department of Surgery *Rakesh*
4. Department of OBGY

Moderator: - Dr. Kirti Kadam
Dr. Dipali Paraskar

Sachin
Dr. Sachin Bhalerao
Interns Incharge

Motiwala
Dr. F. F. Motiwala
Principal

Information To:-

1. Dr. Faraz Motiwala – Asst. Medical Superintendent
2. Dr. Sahar Motiwala-Singh – Trust Representative *Motiwala*
3. Col. Rakesh Chadha- Registrar
4. Mr. Azhar Sayyed – Admin Officer *19/10*

Case Based Learning with Problem Solving Methodology Answer Sheet

Conducted On: March 1, 2021

Time 11.30 AM

For IIIrd BHMS

1. What are the Differential diagnosis?

The two main differential diagnoses are pelvic inflammatory disease and acute appendicitis. The young female with right iliac fossa pain is often difficult to diagnose. The other differential diagnoses of right iliac fossa pain mimicking appendicitis are shown below.

Differential diagnoses

- Surgical
 - Crohn's disease
 - mesenteric adenitis
 - gastroenteritis
 - diverticulitis (caecal or left sided with a floppy sigmoid lying centrally or on the right of the midline)
 - Meckel's diverticulitis
 - acute cholecystitis
- Urological
 - acute pyelonephritis
 - ureteric colic
- Gynaecological
 - pelvic inflammatory disease (salpingitis, salpingo-oophoritis, tubo-ovarian abscess, endometritis,)
 - ruptured ovarian cyst
 - ovarian torsion
 - haemorrhage/rupture of ovarian mass

2. How should the patient be managed initially?

The high white cell count, raised CRP and tenderness in the right iliac fossa make appendicitis the most likely diagnosis in this patient. In clear-cut cases of appendicitis the patient is taken to theatre for appendicectomy.

3. If you are unsure of the diagnosis, how should you proceed?

If the diagnosis is most likely gynaecological, the patient should be referred to the gynaecologists for a transvaginal ultrasound scan and high vaginal swabs. Where there is doubt, the patient can be taken for diagnostic laparoscopy. If the appendix is abnormal it can then be removed laparoscopically.

WISH You Happy Problem Solving Methodology from Dept. of Surgery MHMC

Case Based Learning with Problem Solving Methodology

Conducted On: March 1, 2021

Time 11.30 AM

For IIRD BHMS

History:

A 22-year-old woman presents to the emergency department complaining of lower abdominal pain. This has steadily increased in severity over the previous 24 h and woke her from her sleep. The pain is constant, and simple analgesia has not helped. She has vomited once in the OPD. Her menses are regular and she is now on day 12 of her cycle. There is no history of vaginal discharge or urinary symptoms. She has no children. She has not undergone any previous surgery but has a history of sexually transmitted disease 2 years ago, treated with antibiotics. There is no other relevant medical history. She takes no current medication and has no allergies. She is a non-smoker. She feels dryness in mouth with increased thirst. Her bowel is constipated. Want to lie down and doesn't want to get disturbed.

Examination

Her blood pressure is 110/72 mmHg and pulse rate is 110/min. Her temperature is 38.2°C and there is lower abdominal tenderness, more marked in the right iliac fossa, with some rebound tenderness. There are no palpable masses and the loins are not tender. Digital rectal examination is normal. Bimanual per vaginal examination reveals adnexal tenderness on the right.

	Observed Findings	Normal Range
Haemoglobin	14.7 g/dL	11.5–16.0 g/dL
White cell count	16.6 10 ⁹ /L	4.0–11.0 10 ⁹ /L
Platelets	367 10 ⁹ /L	150–400 10 ⁹ /L
Sodium	139 mmol/L	135–145 mmol/L
Potassium	4.1 mmol/L	3.5–5.0 mmol/L
Urea	5.6 mmol/L	2.5–6.7 mmol/L
Creatinine	74 μmol/L	44–80 μmol/L
C-reactive protein	145 mg/L	5 mg/L

Urine dipstick: NAD (nothing abnormal detected)
 Urinary β human chorionic gonadotrophin (HCG): negative

Questions

1. What are the differential diagnosis?
2. How should the patient be managed initially?
3. If you are unsure of the diagnosis, how should you proceed?
4. Kindly Count the Alvarado Scoring System for the case and give probable interpretation of the score?
5. Enumerate 4 Suitable Homoeopathic remedies?

WISH You Happy Problem Solving Methodology from Dept. of Surgery MHMC

4. Kindly Count the Alvarado Scoring System for the case and give probable interpretation of the score?

Alvarado Score	Score	Score in the case
Abdominal pain that migrates to the right iliac fossa	1	0
Anorexia (loss of appetite) or ketones in the urine	1	0
Nausea or vomiting	1	1
Tenderness in the right iliac fossa	2	2
Rebound tenderness (Blumberg)	1	1
Fever of 37.3 °C or more	1	1
Leukocytosis > 10,000	2	2
Neutrophilia > 70%	1	0
Total	10	7

Interpretation : Score 7-8 Appendicitis is likely

5. Enumerate 4 Suitable Homoeopathic remedies

1. Belladonna 2. Bryonia alba 3. Rhus Tox 4. Iris Tenex

Most likely prescribed medicine will be Bryonia alba in 30 C potency, 8 hourly for 1 day and evaluate the response after one day.

Reason for Prescription : gradual onset abdominal pain, with constipation and increased thirst. Patient doesn't like to move or get disturbed.

List of Topic for DOPS & DEPS for INTERNS

OBSERVATIONAL & EXPERIMENTAL TOPICS

SR. NO.	Observation	Objective	Method	Result expected
A	Basics skill			
1	Thermometer	1. Know the instrument use. 2. Procedure. 3. Different type of thermometer	Demonstration Experiential	Student should be able to use the thermometer in scientific way.
2	Sphygmomanometer	1. Know the instrument use. 2. Procedure. 3. Different type of Sphygmomanomete	Demonstration Experiential	Student should be able to use the Sphygmomanometer in correct way.
3	Stethoscope	1. Know the instrument use. 2. Procedure. 3. Different type of Stethoscope	Demonstration Experiential	Student should be able to use the Stethoscope for clinical examination.
4	Tuning fork	1. Know the instrument use. 2. Procedure. 3. Different type of Tuning fork	Demonstration Experiential	Student should be able to use the Tuning fork in scientific way.
5	Patellar Hammer	1. Know the instrument use. 2. Procedure.	Demonstration Experiential	Student should be able to use the Patellar Hammer in scientific way.
6	Tape measure	1. Know the instrument use. 2. Procedure.	Demonstration Experiential	Student should be able to use the Tape measure for clinical examination.
7	Auroscope	1. Know the instrument use. 2. Procedure.	Demonstration Experiential	Student should be able to use the Auroscope in clinical examination.

	Ophthalmoscope	<ol style="list-style-type: none"> 1. Know the instrument use. 2. Procedure. 	Demonstration Experiential	Student should be able to use the Ophthalmoscope for clinical examination.
	Test chart for color vision	<ol style="list-style-type: none"> 1. Know the instrument use. 2. Procedure. 	Demonstration Experiential	Student should be able to use the Test chart for color vision.
0	Snellens chart	<ol style="list-style-type: none"> 1. Know the instrument use. 2. Procedure. 3. Different type of Snellen chart 	Demonstration Experiential	Student should be able to use the Snellen chart in scientific way.
1	Proctoscope	<ol style="list-style-type: none"> 1. Know the instrument use. 2. Procedure. 	Demonstration Experiential	Student should be able to perform the Proctoscopy.
2	Disposal gloves	<ol style="list-style-type: none"> 1. Know the Procedure of wearing gloves. 2. Different type of Disposal gloves 3. Disposal of gloves 	Demonstration Experiential	Student should be able to use the Disposal gloves in correct manner.
	Lubricant	<ol style="list-style-type: none"> 1. Know the clinical use. 	Demonstration Experiential	Student should be able to use the Lubricant in various clinical procedures.
	Cotton wools	<ol style="list-style-type: none"> 1. Know the clinical use. 2. Procedure. 	Demonstration Experiential	Student should be able to perform the Cotton wools for testing .
	Torch	<ol style="list-style-type: none"> 1. Know the instrument use. 2. Procedure in clinical medicine. 3. Different type of Torch 	Demonstration Experiential	Student should be able to use the Torch in a correct method.
	First aid ABC	<ol style="list-style-type: none"> 1. Know the instrument use. 2. Procedure. 3. Different type of First aid ABC 	Demonstration Experiential	Student should be able to use the First aid ABC individually.
	Bandages, uses and different types of bandages	<ol style="list-style-type: none"> 1. Know the art of bandaging. 2. Different type of Bandages 	Demonstration Experiential	Student should be able to use the Bandages .

B	Investigations in clinical medicine	1. To know the different investigations in clinical medicine.	Demonstration	Student should be able to interpret.
C	The History and general principles of examination & case records	Approach to the Sick	Demonstration Experiential	Intern will be available reach the skill of case taking
	Systemic examination			
	Respiratory system	1.To know method of examination Inspection, Palpation , Auscultation, Percussion	Demonstration Experiential	Intern should be able to differentiate various clinical condition and try to reach to the diagnosis
	Gastrointestinal system & Renal system	1.To know method of examination Inspection, Palpation , Auscultation, Percussion	Demonstration Experiential	Intern should be able to differentiate various clinical condition and try to reach to the diagnosis
	Cardiovascular Systemic	1.To know method of examination Inspection, Palpation , Auscultation, Percussion	Demonstration Experiential	Intern should be able to differentiate various clinical condition and try to reach to the diagnosis
	Nervous system	1.To know method of examination Inspection, Palpation , Auscultation, Percussion	Demonstration Experiential	Intern should be able to differentiate various clinical condition and try to reach to the diagnosis
	Endocrinal system	1.To know method of examination Inspection, Palpation , Auscultation, Percussion	Demonstration Experiential	Intern should be able to differentiate various clinical condition and try to reach to the diagnosis
	Locomotor system	1.To know method of examination Inspection, Palpation , Auscultation, Percussion	Demonstration Experiential	Intern should be able to differentiate various clinical condition and try to reach to the diagnosis
	Haemopoetic system	1.To know method of examination Inspection, Palpation , Auscultation, Percussion	Demonstration Experiential	Intern should be able to differentiate various clinical condition and try to reach to the diagnosis
	Examination of Older patient	1.To know method of examination	Demonstration Experiential	Intern should be able to differentiate various

		Inspection, Palpation , Auscultation, Percussion		clinical condition and try to reach to the diagnosis
	Examination of New born & Children	1.To know method of examination Inspection, Palpation , Auscultation, Percussion	Demonstration Experiential	Intern should be able to differentiate various clinical condition and try to reach to the diagnosis
	Musculoskeletal system	1.To know method of examination Inspection, Palpation , Auscultation, Percussion	Demonstration Experiential	Intern should be able to differentiate various clinical condition and try to reach to the diagnosis

SR. NO.	Observation	Objective	Method	Result expected
D.	PROCEDURES SKILL.			
1	Ryles tube	1. Know the methodology. 2. Different no. of Ryles tube.	Demonstration Experiential	Student should be able to perform the procedure.
2	Catheterization	1. Know the methodology. 2. Different no. of catheters.	Demonstration Experiential	Student should be able to perform the procedure.
3	Injections(Intravenous & Intramuscular)	1. Knowing the varieties of syringes and needles. 2. Routes of administration. 3. Disposal of Needles & syringes & Vials	Demonstration Experiential	Student should be able to perform the procedure.
4	Lumbar puncture	1. Know the methodology. 2. Interpretation of CSF reports. 3. Indications.	Demonstration	Student should be aware of correct method and complication.

	Ascitic tapping	1. Know the methodology. 2. Indications	Demonstration	Student should be aware of correct method and complication.
	Pleural tapping	1. Know the methodology. 2. Indications	Demonstration	Student should be aware of correct method and complication
	ECG (Electrocardiogram)	1. Know the methodology. 2. Indications	Demonstration	Student should be aware of correct method and complication
	Ventilator	1. To know the ventilator Indication, Uses, procedure	Demonstration	Student should be aware of correct method
B	X Ray	1. To Interpret common clinical presentation on X ray 2. To know the procedure of X ray taking	Demonstration	Student should be able to interpret X rays appropriately

Quantitative analysis criteria for post training practices adopted by student.

Sr no	Assesment parameter	Score achieved
1.	Use of Instruments /examination/procedure	
2	Methods of sterilization of instrument /Aspective technique while carrying out procedure or examination	
3	Appropriate positioning of Instruments /examination/procedure	
4	Interpretation of results	
5	Complications/Contraindication of Instruments /Procedure /examination

Department of Community Medicine
Departmental Procedures

Sr. no	Departmental Procedures
A	Lectures
1	Division of syllabus among professor, reader, lecturer
2	Preparation of teaching plan
3	Lecture – preparation
4	Lecture – approach -didactic, interactive & group dynamics
5	Post lecture assessment – topic covered with respect to teaching plan –feedback from students- doubts clearance
6	Student activity – simultaneous running notes
7	Assessment – internal and external examination
B	Indoor Practical
1	Selection of topic based on its practicability
2	Its importance should be verified – in regard with utility in future practice and as per examination point of view.
3	Practical – preparation
4	Approach-Experimental – demonstrative –illustration
5	Post practical - topic covered with respect to teaching plan –feedback from students-doubts clearance
6	Student activity – Practical & journal writing
7	Assessment – internal and external examination
C	Field Visits
1	Planning The Date And Time
2	SOP preparation
3	Sending the letter to respective authority for their permission
4	Objective – learning the importance of subject with real working producer.
5	Approach- demonstrative –illustrative
6	Student activity- report preparation with learning experiences & photographs of process
D	Domiciliary Health Care System [Adaption Scheme]
1	Organizing opening programme and inviting respectable people to make them aware about this programme.
2	Selection of houses and family on certain criteria.
3	Taking written consent from selected family.
4	Visiting family every Saturday.
5	Filling survey format on different topics in journal
6	Collection of data
7	Creating awareness about different topics among adopted families.
8	Writing learning experiences in journal
9	Feedbacks from families

Handwritten signature in blue ink.
